***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 18-25 to Invention non-elected without traverse. Accordingly, claims 18-25 have been cancelled.

***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:

Applicant's claims 1-17 are allowable over the references of record because none of these references disclose or can be combined to yield the claimed method of forming an integrated semiconductor structure comprising: growing a semiconductor material on the exposed surface of the bottom semiconductor layer, the semiconductor material having a crystallographic orientation that is the same as the second crystallographic orientation; forming a buried insulating region in the semiconductor material by ion implantation and annealing, the buried insulating region separates the semiconductor material from the bottom semiconductor layer; and planarizing the implanted semiconductor material to provide a structure in which the semiconductor material having the second crystallographic orientation is substantially coplanar and of substantially the same thickness as that of the top semiconductor layer, in combination with the remaining claimed limitations.

Art Unit: 2811

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
